

## **North Dakota Association of REALTORS®**

Trust Funds (Earnest Money Made Easy) eliminates the inefficient and unsecure process of depositing and tracking paper earnest money checks. We believe we are the first state to offer this as a member benefit from the state level. From what we know this is also the only company that offers what they do. There are others that deal with electronic deposits but not directly from link within the MLS. The program will provide security and safety for our clients when doing earnest money deposits. It also has security for REALTORS® as it releases liability of having this information and checks in possession. <https://www.trustfunds.us.com/>
