Report

SDAR Road Show - Caravan

The South Dakota Association of REALTORS® is sharing our success with the implementation of an “old” program that was brought back following an end by the SD Real Estate Commission – the caravan. Now SDAR is the sponsor of this educational offering which will be held at four locations in four days, covering the state of South Dakota. Six hours of required continuing education will be offered for the same low price that was established in the past.

We are excited to bring a professional, knowledgeable and nationally recognized instructor to our state to deliver this quality education for a reasonable price to all of our state’s real estate licensees.

Leadership Academy

Our state has been successful in hosting a statewide Leadership Academy. This year, 2017, marks the third class of academy participants. Our goal is to continue to assist our members in their personal and professional development and to enhance their skills as they take leadership roles in our association.

It is our belief that our state association will greatly benefit from trained, educated and committed leaders who will serve in the future.
